*Simple, Budget-Friendly Wireless Phone Plans Designed to be Combined with Mediacom Xstream Internet Service*

MEDIACOM PARK, N.Y.--(BUSINESS WIRE)--[Mediacom Communications](#) today announced the launch of [Mediacom Mobile](#), the company's new mobile phone service. Offered in partnership with Verizon, Mediacom Mobile will provide consumers speed, scale, reliability, and wide-ranging availability at incredibly affordable rates.

Designed to be paired with Mediacom Xstream Internet service, Mediacom Mobile is available in two simple, budget-friendly residential plans:

- **Unlimited Plan** – Unlimited mobile service for \$40 per month, per line including all taxes and fees.
- **By the Gig Plan** – Pay as you go mobile phone service for \$15 per month, per gigabyte including all taxes and fees.

As an authorized Verizon mobile virtual network operator, Mediacom Mobile gives consumers access to America's most awarded network. Moreover, Mediacom Mobile customers will be able to seamlessly access thousands of Mediacom Xstream WiFi Hotspots across the nation for an enhanced wireless experience inside and outside the home.

"Our core mission as a company has always been to bring the very best communications services to the communities we serve," said Tapan Dandnaik, Mediacom's SVP of Operations, Product Strategy and Consumer Experience. "By combining a proven national wireless network with our fast and reliable fiber-rich Gigabit speeds, robust Xstream Wi-Fi capabilities, and simple, affordable pricing plans, we believe Mediacom Mobile creates a ubiquitous connected experience and a compelling wireless solution for consumers."

"Verizon, a global leader in telecommunications and technology, is committed to providing exceptional service to customers, and MVNO partners like Mediacom are a vital part of our wholesale strategy to deliver superior customer experiences and value that consumers are looking for," said Mario Turco, Vice President - Wholesale, Verizon Consumer Group. "We are excited to share in Mediacom's success launching their wireless services on our network".
